

**BOXED
WATER**®

Boxed Water #14304 24/500 ml.

Packaged water is a massive and growing market. It's important to view its purchase and consumption as a behavioral issue: the market will continue to consume it, but it always looking for the product with the least impact — the most thoughtful product.

Why Boxed Water?

Boxed Water donates 1% of annual revenue to world water relief, reforestation, & environmental protection projects.

Trees used to come from certified, well managed forests and remain healthy & stable through replanting while removing CO2 from the atmosphere.

All boxes are recyclable & 76% of Boxed Water cartons come from a renewable source...trees.

Triple filtered, purified drinking water from a regional source.
