Califia Farms Barista Blends

Using Queen Califia, or the "Spirit of California" as their muse, Califia Farms prides itself on returning food to its original, nourishing purpose with products that are solely plant-based. Their mission is to decrease the impact of meat and dairy industries on the environment through inspiring others with the power of what plants can do. Califia Farms is also committed to reducing sugar and have lowered the amount of sugar in their products by 57% since 2014. Their Barista Blends steam beautifully, with creaminess and stretch perfect for latte art.

Handling Info
